

Saving the lives of children in the developing world

## PEDIATRIC DIABETIC CLINIC AT BPKIHS.

EVERY MONDAY AT 2PM IN PEDIATRIC OPD

We are managing type I diabetes mellitus in children and adolescents. There are 20 children in regular follow up every Monday at 2pm. We are providing insulin syringes, regular and mixtard insulin, lancet and insulin pen free of cost with the continuous support of LFAC.

### LFAC (LIFE FOR A CHILD):

The International Diabetes Federation "Life for a Child" Programme was established in 2000 with support from the Australian Diabetes Council and HOPE worldwide. It is an innovative and sustainable support programme in which individuals, families and organizations contribute monetary or in-kind donations to help children with diabetes in developing countries.
