Specification

1. Objectives:

This assignment aims to fulfill the following objectives.

1. Perform a need analysis of both wired and wireless network equipment and supporting IT systems within the premises of BPKIHS with an aim to fulfill seamless and secured Internet/Intranet access as per the specific requirement with world-class Quality of Service (QoS) for the management, faculty, students, and visitors.
2. Preparation of Bill of Quantity (BoQ) upon completion of need and requirement assessment with the latest devices/equipment, Software, and services.
3. Oversee network and systems design, procurement, installation, commissioning, and training (of BPKIHS Computer Management Section Employees) to manage and operate the newly implemented IT Systems and Wired/Wireless Network as per the approved network and systems design.

2. Scope of Work:

The consulting firm shall perform the following activities to meet the above-mentioned objectives:

i. Survey:

The consulting firm shall carry out a detailed survey for need assessment and requirement analysis of BPKIHS Wired/Wireless Network along with IT Systems and plan/define detailed project requirements prior to submitting the proposal. The survey must be conducted physically with consent from BPKIHS. After the survey, a survey completion letter from the Computer Management Section of BPKIHS must be taken which shall be submitted by the consulting firm while submitting the proposal.

ii. Assessment of Technology and Standards:

Based on the requirement definition, the consulting firm shall assess the latest technology and standards to identify the technology best suited for the project. The consultant shall explore various alternatives based on the most appropriate technology available.

iii. Technical design and preparation or specifications:

After the selection of the most suitable technology and standards, the consulting firm shall prepare a technical design and Bill of Quantities (BOQ).

iv. Preparation of RFP:

The consulting firm shall prepare an RFP (Request for Proposal) document to procure the equipment and software/service as per the procurement act/guideline of the Government of Nepal (GoN).

v. Tender execution:

The consulting firm shall execute the tender process per the laws/bylaws of the Public Procurement Monitoring Office (PPMO), GoN.

vi. Installation/operation of equipment and systems:

The consulting firm shall do proper monitoring of the equipment/device procured/installed and make sure the equipment/device is operational.

3. Competencies and Expertise of the Consulting firm:

3.1. Competency:

The consulting firm selected for this assignment shall have the following competency profile

- The consulting firm must have a minimum of three years of experience.
